

Multilingualism, Applied Translation and Cultural Economy Master's Degree

WHAT IS THE LEA MULTITAEC MASTER'S DEGREE?

Are you looking for a multilingual Master's degree, open onto the international experience, culture as well as the professional world ? The MultiTAEC Master's (which stands for Multilingualism, Applied Translation and Cultural Economy) gives you the opportunity to combine three different languages with career-oriented disciplines.

From interculturality to dubbing courses not forgetting international relations or translation, the MultiTAEC Master's is THE ONE that will allow you to apply your studied languages to different fields of expertise, cultural or technical ones. You will be able to consider a professional career abroad or alongside with international professionals.

HOW IS THE MASTER'S ORGANISED ?

LINGUISTIC AND TECHNICAL SKILLS

- Translating
- Interpreting
- Subtitling
- Dubbing

INTERCULTURAL SKILLS

about the Master's organisation

WHY SHOULD YOU CHOOSE THE MULTITAEC SPECIALTY ?

Although there are many Master's degrees in Foreign Applied Languages in France, the MultiTAEC specialty stands out thanks to:

- **Its linguistic diversity:** the MultiTAEC specialty will allow you to keep learning 3 languages that can be chosen between English, Spanish, German, Portuguese, Italian, Russian and Arabic. If you only speak two so far, no worries ! You will be able to take beginner Russian classes. You may also choose Spanish as your first foreign language, since English is not mandatory.
- **Its global outlook:** you will get the chance to put into practise the knowledge of languages and cultures that you will acquire at the University of Poitiers during a semester abroad. This mandatory student mobility will allow you to immerse yourself in the culture of a country that you will choose from a broad selection of destinations.
- **Its career-oriented training:** In order to complete your training, the last semester will be dedicated to a long term internship (from 5 to 6 months). You will be able to use the abilities and knowledge acquired during the two years of the Master's. Thanks to the diversity of the courses, this internship could be done in various fields, such as translation, tourism, cultural mediation, communication, and so on.

- **Its recognition abroad:** for students who speak Italian: you can get a dual degree with the University of Bergamo (Università degli studi di Bergamo) if you choose to go to Bergamo during the second semester's mobility. You may follow the classes of the "Lingue Moderne per la Comunicazione e Cooperazione internazionale" and graduate from both Masters'. In order to offer this opportunity to the students of other languages, other partnerships are under study.

WHAT'S NEXT ?

Integration in the professional world in the following fields:

- Communication
- Translation
- Promotion of local tourism
- Social mediation and facilitation of life in society
- Local development

Pursuing studies: possibility of a PhD in Contemporary Civilisation with the research laboratories of the University :

- **Mémoires, Identités et Marginalités dans le Monde Occidental (MIMMOC)** (Memories, Identities and Marginalities in the Western World)
- **Centre de Recherches Latino-Américain (CRLA)** (Latin American Research Centre)
- **Formes et représentations en linguistique et littérature (FoReLLIS)** (Forms and representations in linguistics and literature)

Links and reorientation: upon examination of the files.

WHAT DO STUDENTS SAY ABOUT IT?

"Thanks to the LEA MultiTAEC Master's, I've had the chance to go on an Erasmus exchange to Almaty in Kazakhstan, in 2020. It was a really rewarding experience on every level. It allowed me to discover a culture, while practising Russian in immersion, and to follow a course tailored to my needs at Al-Farabi University. It is a rather unusual destination I would not have spontaneously thought of, but the framework of Erasmus exchanges allows an easier access to this kind of destination, so I took advantage of it. I recommend the experience without any hesitation!"

Raphaël, Master's First Year student 2019-2020

"I am an Italian student from the University of Bergamo enrolled in the Master's "Languages for Communication and International Cooperation". For my second year, I have chosen to go to the University of Poitiers for a term as part of the dual degree. This stay allowed me to acquire skills in multilingualism and in international relations, and to take part in creative workshops such as dubbing, multilingual writing and interpreting. This project is not only an abroad experience, it is also an opportunity to put all the preliminary knowledge into practice in a versatile context." Alba, Master's Second Year student 2020-2021
